**What: Global Green's Pre-Oscar® Party is the green event of Oscar® Week.** A green carpet welcomes celebrities and other eco-luminaries to the venue where a wall of paparazzi snaps pictures and the entertainment press from around the world come to hear about the latest green messages from some of Hollywood's biggest stars. Inside the venue, an audience of almost 1,500 is treated to exclusive musical performances by top artists.

**Why:** Without a doubt protecting the environment and stopping global climate change are the biggest challenges of our generation. Global Green is uniquely equipped to take on these challenges through its comprehensive approach of merging mass education of the public, creating community based solutions to energy use and climate change and successful policy work.
